

- **Integrity in Action**
- **Innovation**
- **Safety First**
- **Precision & Reliability**

Trusted NDT Solutions for the Oil & Gas Industry Locally owned and operating in the Permian Basin

Specializing in pipeline integrity, facility safety, and fabrication quality across the Permian Basin and beyond. Our technicians operate a complete fleet of mobile inspection units equipped with advanced digital technology, delivering fast, accurate results without compromising quality. Our inspection services integrate seamlessly with project schedules, quality programs, and operational requirements.

CONTACTS

Luke Barefield

LOCATION

4200 S. CR1140 Midland Tx. 79706

X-TECH NDT - Inspection & Integrity Services Radiographic Testing (RT) / Digital X-Ray

- Computed Radiography (CR)
- Pipeline weld inspections
- Fabrication weld QA/QC
- Structural and pressure piping weld inspection
- Soil-to-Air Interface (SAI) inspections
- Profile level / bridle inspections
- Digital imaging with faster turnaround and enhanced analysis compared to traditional film radiography X-Tech Trusted-NDT

Magnetic Particle Testing (MT)

- Surface and near-surface crack detection
- Inspection of ferromagnetic materials
- Weld and structural steel inspections X-Tech Trusted-NDT

Ultrasonic Thickness Testing (UTT)

- Corrosion monitoring
- Wall thickness measurements
- Remaining life and integrity assessments for piping, tanks, and vessels X-Tech Trusted-NDT

Project Management & Inspection Support

- Inspection program coordination
- Turnaround and outage inspection support
- QA/QC oversight for fabrication and construction
- Project management assistance for inspection-driven work scopes
- Coordination between operations, engineering, and inspection teams

Hardness Testing & Heat Damage Assessment

- Portable hardness testing
- Fire damage / heat exposure assessments
- Metallurgical condition verification after high-temperature events
- Weld hardness verification

SERVICES

Liquid Penetrant Testing (PT)

- Surface defect detection on non-magnetic materials
- Weld inspection for stainless and specialty alloys
- Component integrity inspection X-Tech Trusted-NDT

Welder Qualification Testing

- Welder performance qualification testing
- Code compliance testing (ASME, API, AWS)
- Weld procedure qualification support
- Radiographic verification of test coupons

Coating & Lining Inspection

- Internal coating inspections
- Holiday testing / spark testing
- Coating integrity verification for tanks, vessels, and piping

API Inspection Services

- API 510 - Pressure Vessel Inspections
- API 570 - Process Piping Inspections
- Compliance and integrity program support
